My Planner

From the My Planner link of the Student Center page you can view your advisee's planner. The My Planner tool allows students to add courses from their requirements or by browsing the course catalog.

With this feature you can help advisees plan future semesters (although the course may not be offered in the semesters you add them to). Students do not need an enrollment period to make changes to their Planner.

Academic Requirements

You can view Academic Requirements from the other academic drop down menu. Advisee Requirements shows the status of satisfied or not satisfied, and the courses that would fulfill each requirement.

During their enrollment period students can add classes directly from their requirements. At any time students can add classes to their Planner from their academic requirements or the Course Catalog within PeopleSoft.

Note: not all degree programs have been set up to display academic requirements or degree progress in My Academics.
